New Albany, Ind., March 12, 1867. For forty years I have been afflicted with and for the last twenty was compelled daily to resort to injections to secure an evacuation. In December last I commenced the use of Radway's Pills. After taking a few doses, my liver, stomach, and bowels were restored to their natural strength and duties. I have now a regular movement once a day, and, although 80 years of age, feel as hearty and strong as I did 40 years Dr. Radway, N. Y. THOS. REDPATH, J. P.

HIGH ENDORSEMENT FROM THE MEDICAL COLLEGE OF PRUSSIA.

DR. RADWAY Is in receipt of an important official docu-ment, signed by the Professors of the Medical College of Breslau, Prussia, embodying the result of an

analysis of

RADWAY'S REGULATING PILLS. "The Faculty of the College state in their report that after a careful and simule examina-tion, they have the honor to state that "the pills are not only free from every substance injurious to health, but are composed wholly of substances and elements promotive of digestion, and certain at the same time to act favorably upon the nervous system, &c., &c. They state, further, that the injurious rumors set affoat by the Prussian apothe-caries originated "in a mean spirit of trade jealousy, excited by the great celebrity at-tained by the Pills within a very brief period."

Signed on behalf of the College, DR. PHIL. THEOBALD WERNER. Director of the Polytechnic Bureau, DR. HESSE, First Assistant.

INDICESTION !

In cases where natural evacuations are difficult to secure, and a quick discharge is essential, take six of Radway's Pills and pul-werize them,—take the pill powder in water or preserves,—in half an hour they will ope-rate. We have known the most distressing pains of Gastritis, Bilious Cholic, Inflamma tion, Congestion, &c., stopped, and the re-tained irritating humers expelled from the bowels in thirty minutes by this treatment. It is however, better in caronic cases to take the pills as they are, and let them gradually dissolve in the stomach. These Pills possess in the highest degree cathartic, aperient, tonic, and diapharetic properties. They do do not weaken or debilitate the system or do not weaken or decimate any systems any of its organs, and will leave the howels regular and healthy. They purify and equalize the circulation of the blood. No congestion or inflammation will occur while the tion or inflammation will occur while the system is under their influence. Price 25 nts per box, or 5 boxes for one dollar.

The Life of all Flesh is the Blood thereof." Purify the Blood, and the health of the whole system will follow. It is a Gentle Purgative, as well as a Tonic.
These Bitters are not a gilded pill, to delight the eye or please the fancy, but a Medical Preparation, composed of the Best Vege-

table Ingredients known. Headache, Pain in the Shoulders, Tightness of the Chest, Coughs, Dizziness, Sour Eracta-tions of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, In-flamation of the Lungs, Copious Discharges of Urine, Pain in the Region of the Kidneys, and a hundred other painful symptoms, are the offspring of this Dyspepsia. For these troubles, take Dr. Walker's Vinegar Bitters, and quickly all painful symptoms will disappear.

It is a Gentle Purgative, As well as a Tonic, possessing, also, the pecliar merit of acting as a powerful agent in relieving Congestion, or Inflamation of the Liver, and all the Visceral Organs. In this respect, these Bitters have no equal.

For Female Complaints, Whether in the young or old, married or sin-gle, at the dawn of womanhood or the turn of life, these Tonic Bitters display so decided an influence, that a marked improvement perceptible in the health of the patient. For Inflammatory Rheumatism,

Chronic Rheumatism and Gont, these Bitters have been most successful. They are caused by vitiated blood, which is generally produced by derangement of the Digestive Organs. Piu, Tope and other Worms, lurking in the system of so many thousands on the Pacific Coast, are effectually destroyed and removed Morbid Condition of the Blood.

This is the fruitful source of many diseases, such as Tetter or Salt Rheum, Ringworm Boils, Carbuncles, Sores, Ulcers, Pimples, an Eruptions of all kinds. For the cure of thes various affections, which are merely symptoms of a Morbid Condition of the Blood, medical science and skill have not, as yet, discovered a Blood Parifier equal to Walker's Vinegar

Diseases of the Blood, Liver, Kidneys, and Biadder. It thoroughly eradicates every kind of humor and bad taint, and restores the entire system to a healthy condition. It is perfectly harmless, never producing the slightest injury.

Bilious Remittent Fevers. And Intermittent Fevers, which are so preva-lent in the Valleys of the Pacific Coast, during the Summer and Autumn, and especially dur-ing seasons of unusual heat and dryness, are invariably accompanied with extensive de-rangements of the Stomach and Liver, and other abdominal viscera. There are always more or less obstructions of the Liver, a weakness and irratable state of the Stomach, and great topor of the Bowels, being elogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influ-ence upon these various organs, is essentially necessary. There is no eathertic for this pur-pose equal to Dr. J. Walker's Vinegar Bitters, as they will speedily remove the dark-colored viscid matter with which the bowels are load-ed, at the same time stimulating the secretions of the Liver, and restoring the healthy functions of the Digestive Organs generally. The universal popularity of this valuable remedy in regions subject to miasuratic influences, is ient evidence of its power as a remedy in such diseases.

LATE INTELLIGENCE.

Madrid, April 23.—The result of the conference of the members composing the majority of the Cortes is, that it has left the members more widely divided than before. Serrano has declared that the choice of Montpensier for King, or the declaration of a Republic, is the only possible alternative. Prim has remained silent throughout the proceedings. His conduct has given rise to a wide-spread belief that he would not be unwilling to accept the Presidency of the Spanish Republic.

the Presidency of the Spanish Republic. New Your, April 22.—The Herald's London New Your, April 22.—The Heraid's London special says the London papers comment very freely on the present state of affairs in Cuba. The Telegraph, a Ministerial organ, of a mo-derate tone, says that in regard to the indepen-dence of Cuba, England is unbiased, but, at the same time, admits that England's interest cas be best subserved by Spain retaining her can be best subserved by Spain retaining her authority over the Island. The article does not say, however, that in any case it shall be the business of England to interfere to prevent Cuban independence, but it maintains that the good opinion of England might prove useful to avert a quarrel between Spain and America. It designates the seizure of the ship Mary Lowell as a mad act implicating England-Spain's best friend unless the latter country offers reparation for the insult. The article then goes on to argue that the Cubans can never willingly attach themselves to the United

The London Owl of this evening, speaking f the matter, says that President Grant seems to have gone mad on the subject of Cuba. It thinks England and France would declare war if America attempted to wrest the Island from Spain. The Owl says President Grant longs for a foreign war, knowing, as he does, that the feeling at present pervading America ap-plies in a less degree of France. NEW YORK, May 6.—A letter from Constan-

tinopie, says, Col. Eugene O'Reilly, an Eng-lishman, living in Turkey, was arrested in Syria, charged with importing arms and am-munition, under the pretence of a railroad survey, for getting up an insurrection in favor of Mustapha Tazir Pacha, brother of the Vice-roy of Egypt, so as to create for the former, a new vice-royalty, west of Palestine, along the Euphrates. The scheme had the approval of the Euglish and French Governments. Mapuro, May 9.—At the Cottes, yesterday,

Prim pronounced as utterly baseless, the ra-mors that he meditated an attempt against the Liberal regime. He declared that the fu-ture would prove his honor, and that liberty was his motto. It is reported that Gen. Ca-braro, the noted Carlist leader, has appeared at Catalonia. New York, april 23.—Heral's special from London says the Post has an article on the Cuban question, and gives currency to the assertion that Grant desires the nequisition of Cuba in order to divert the attention of the American people from internal distractions, it says there would be no doubt as to the issue of the condict, and thinks the acquisition of the whole of the West Indies, France and England will dubtless determine whether these designs against Cuba will be tolerated, or aid Spain in reclaiming her colony. The French press has agitatuted the ques-

tion much in the same tenor. A special meeting of the French Cabinet was held on Wednesday, which resulted in a Special Europheing sent, yesterday, to London, with des, patches referring to the present complication

A strong effort will be made to confirm Mr. Jones, on the ground that he was a personal friend of the President, but it was replied that too many have already been confirmed on that ground.

Washington, April 26—It has been ascertained from an authentic sourse that only six vessels will be employed on public service in Cuban waters, the number being necessarily limited by the act that Congress made great reductions in the personnel of the navy; but this number is sufficient for all legitimate purposes, no trouble with the Spanish authorities being apprehended. The fitting out of several iron-clads has no other significance than the desire of the Navy Department to save them from decay, to which vessels out of commissions are exposed.

Sumner on the Alubama claims and the opin ions of the British press, says Summer thinks the assertions of the British press should be received with much caution, for the reason that England never likes to be told the truth that Engiand never likes to be told the truth, particularly when she is in the wrong. He did not express any suprise at the irritation or even alarm which now exists in that country, since the British people have seen the unanimity with which the Senate supported his views and rejected the Johnson-Stanely treaty, to which state of facts they will soon have added, despite the shifts of the London Times, the disagreeable altenative that President Grant concides completely with his views. Sommer thinks the difficulty will not lead to war, as he is fully convinced England will pay the amount of our bill in preference to fighting. Hoping for an amicable arrangement, the Senator declares there shall be no yielding on the part of the American people after Mothey has made know their wishes to the England Cabinet.
